PRODUCT SOLUTIONS

DCNCABLES.COM

**Trademark of DCN Cables. Registered in the U.S.*

cULus LISTED

DCN Cables are UL Listed specifically for mission-critical data center environments. Our cables are manufactured with all UL Listed components as a complete UL Listed Wire Assembly. DCN Cables are not required to be secured or supported every 4.5 feet (in compliance with NEC, Article 645.5), making power distribution totally flexible and improving installation efficiency.

FAST TURN AROUND

With an available 24 hour turn around option, an unprecedented number of receptacles, color choices and variable lengths, we provide customized cables to fit your specific requirements. Our focus is developing the exact cabling solution for your environment.

CABLE LABELING

We attach a custom identification label — referencing PDU, Panel, Circuit Number, Equipment, Receptacle, Length and UL Certification — to each cable end for easy identification. These labels are secured in place with protective heat shrink. We offer optional face-plate labeling as well.

QUALITY COMPONENTS

We use the highest quality components in the industry.

- All Components are UL Listed & Tested
- UL Listed Liquid Tight with Integral Ground
 - Hubbell Steel LT Connectors & Boxes
 - Abrasion Resistant THHN Stranded Wire
 - Hubbell Receptacles & Connectors
 - Full Russell Stoll Line.

HIPOT AND LOAD BANK TESTING

HIPOT (Dielectric Withstand Voltage Test) testing is performed on every cable. Cables are HIPOT tested at twice-rated circuit voltage, plus 1500 Volts. This test ensures there will be no arcing or shorting of any conductor within the cable.

Every power whip is 100% factory tested through DCN Cables' proprietary automated testing process. Our load banks apply an electrical load that accurately mimics the max load a cable will see while in use within your data center.

INNOVATIVE CAMERA DETECTION

Our patent-pending camera detection system ensures proper wire gauge and phasing. Electronic and hard-copy test results are provided upon request.

DCN CAN CREATE ANY CUSTOM CABLE AND ASSEMBLY YOU CAN IMAGINE

DCN specializes in custom cords of any kind.

- Feeder cables
- MC cables
- SO cord drop cables
- Daisy chain cables
- Custom welding and temp power cables
- OEM manufacturing support

Our team of sales engineers and technicians boast decades of experience in the field of electrical and power cable assemblies. DCN engineers are ready to assist you in the creation of a specific cable program for your project.

EASILY CUSTOMIZE YOUR ORDER WITH THE DCN CABLE BUILDER

TRANSIT TIME

- 1 Day
- 2 Days
- 3 Days
- 4 Days

ADDITIONAL CABLES: MC FEEDER CABLES & GENERATOR CABLES

Our assemblies are available in custom cuts and configurations to power your mission critical facilities. Each cable is 100% tested and fully equipped to power your facility.
