REELEX AIR Packaging
New Packaging, More Benefits

Networking Installations Made Easy

Ensure data integrity and streamline cable installations by choosing Genesis Networking & Communication Cable in REELEX AIR Packaging. Designed to reduce box widths by up to 30%, you can maximize efficiencies with more product per pallet, shelf and truck. REELEX AIR Packaging protects cable integrity and promotes system longevity with a hassle-free experience you can count on.

REELEX AIR Packaging Applications & Features

New REELEX AIR Packaging, paired with Genesis Cable, simplifies networking cable installations. Its larger bend radius design prevents premature unraveling and minimizes friction, lessening the physical impact on cables. Additionally, REELEX AIR Packaging reduces material usage, ultimately saving you time on the job. These packages are easy to transport, stackable, and are made from recycled post-consumer plastic for a more environmentally friendly option.

REELEX AIR Packaging Options
